HOTEL LOBBY

DESONO EX-S8

biamp.

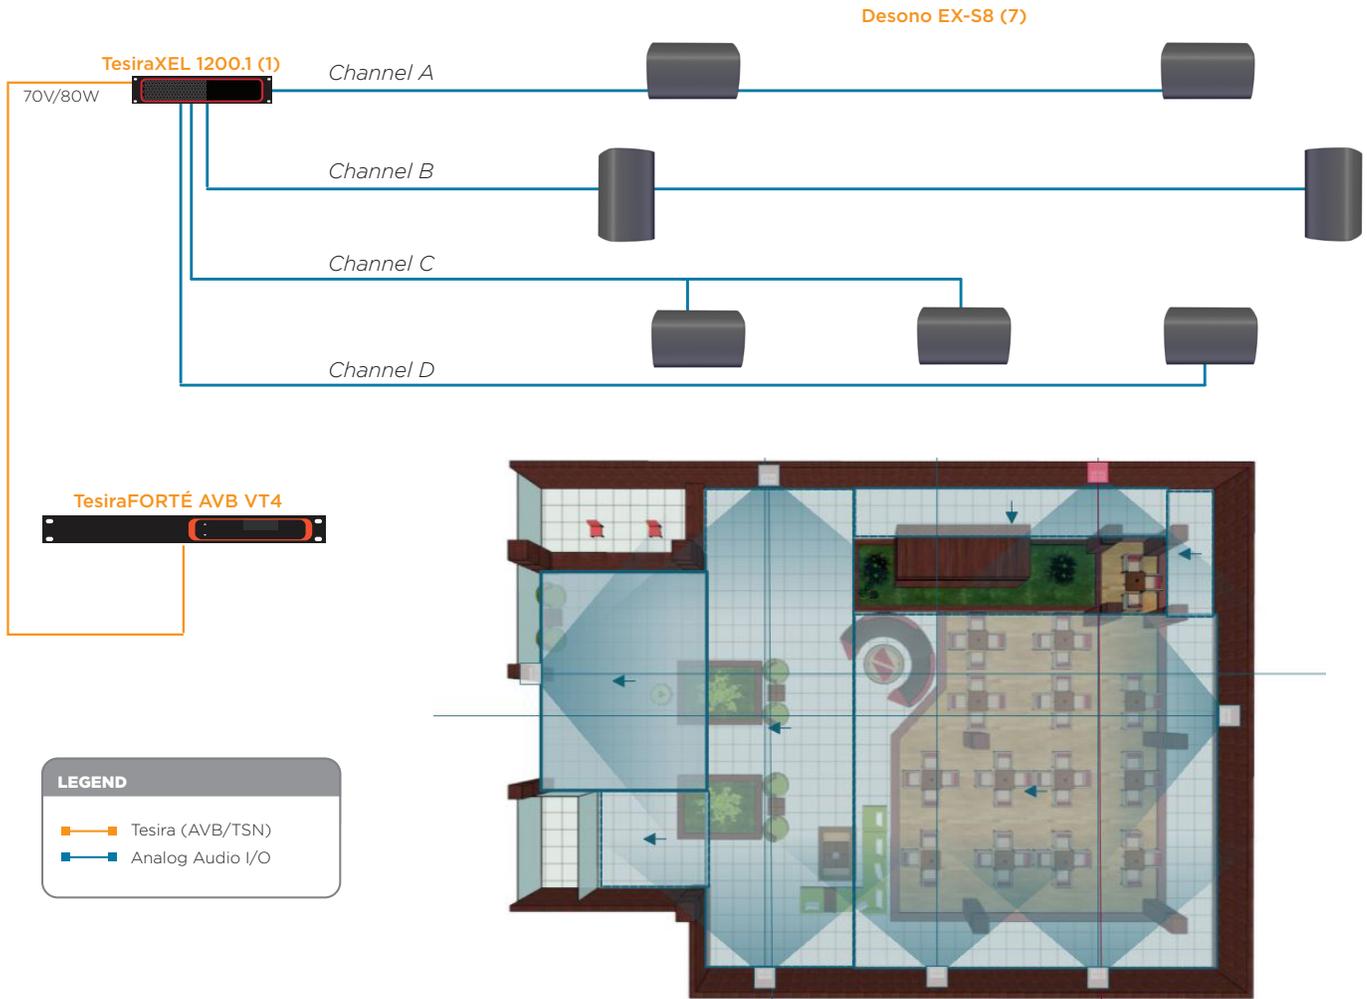

Desono™ EX-S8 provides excellent acoustic performance in elegant, attractive aesthetics ideal for an upscale hotel lobby. The 8" coaxial two-way surface mount speaker distributed throughout the lobby provides detailed voice articulation and exceptional projection. The discreet and modern aesthetics allow these speakers to go unnoticed in the space. The innovative ClickMount u-bracket allows for extensive mounting flexibility and a 35% time decrease on installs.

FEATURES/BENEFITS

- Excellent fill or distributed loudspeaker
- Coaxial HF compression driver provides detailed articulation and exceptional projection
- 6- position switch selects 70V/100V taps or low impedance
- IP54 rated per IEC 60529 - solar radiation, salt mist and chlorine; place in any environment
- Utilizes innovative ClickMount pan-tilt and U-brackets for mounting
- ETL listed to comply with UL 1480A and CSA 62368-1
- EN54-24 certified

BIAMP EQUIPMENT LIST

QUANTITY	PRODUCT	FUNCTION
7	EX-S8-UB	Exceptional voice articulation and detailed projection distributed throughout the hotel lobby.
1	Tesira XEL 1200.1	Provides amplification to Desono EX-S8 in the hotel lobby.
1	TesiraFORTÉ AVB VT4	Specifically designed for spaces that require less analog I/O, TesiraFORTÉ AVB VT4 offers all of the processing power of a traditional TesiraFORTÉ without the extra I/O cost.
