

# ACT-580H 5 GHz Digital Handheld Wireless Microphone

## Features

- Aesthetically designed in special fog black color metal housing features the most comfortable handheld size and presents ultra-low handling noise and a luxurious professional appearance.
- The unique metal grille of the microphone capsule module can be divided into the upper grille and the lower grille. The upper grille can be detached for cleaning; the lower grille is connected with the housing by an external thread. The robust metal grille protects the capsule against impact, rolling and pop noise, and ensures clarity of sound.
- The patented power switch module integrates an LCD for convenience to operate.
- The patented battery compartment can be inserted with two AA-type batteries or one Li-ion rechargeable battery, charging via USB Type-C with the foolproof and safe charging circuit.
- A color-coded channel identification ring is put on the end of the housing. A high efficiency wideband transmitting antenna and USB Type-C charging socket built in a patented antenna cover on the bottom of the housing.
- Pairs with all MIPRO's new interchangeable microphone modules featuring high dynamic range for loud singing without distortion. Also accepts some other brands' microphone modules with similar specifications.

## Specifications

Frequency Band	ISM 5.8 GHz
Display	Backlit LCD
RF Power Output	20 mW (country dependent)
Mic. Capsule Module	MU-80A condenser or MU-59A dynamic modules
AF Sensitivity	Preset at 0 dB (equal to capsule sensitivity)
Battery	One 18500 Li-ion battery or two AA alkaline
Charging	USB Type-C
Dimensions	51 × 272 mm (Ø × L)
Weight	Approx. 320 g
Note	Refer to the actual product in the event of product discrepancy
